

SPONSORED XLH GENETIC COUNSELING

ABOUT THE PROGRAM

For patients with X-linked dominant disorders, such as X-linked hypophosphatemia (XLH), genetic counseling can be an important element in helping them manage their condition, identify family members at risk, and think about family planning.

Ultragenyx has partnered with InformedDNA, a genetic counseling company, to provide sponsored genetic counseling for eligible patients. Program information for patients is available; contact your Ultragenyx representative to request patient brochures.

Who is eligible for sponsored counseling?

- Patients or caregivers of patients aged 6 months and older who have been diagnosed with XLH

For patients meeting the eligibility criteria, this genetic counseling program is provided at no cost.

To refer a patient for sponsored XLH genetic counseling:

Complete and print the **genetic counseling referral form** and fax it to InformedDNA at **760-308-6324**.

You can also complete the form online at:

<https://informedDNA.formstack.com/forms/ultragenyx>.

WOULD GENETIC COUNSELING BE HELPFUL FOR YOUR PATIENTS WITH XLH?

- ➔ Get them started by completing and submitting the genetic counseling referral form.

Genetic counseling is available at no cost to eligible patients through this Ultragenyx-sponsored program.

Reason for Referral

This referral form can be used to submit a request for sponsored genetic counseling, a complimentary program brought to you by Ultragenyx Pharmaceutical. Patients must meet the eligibility requirements for the program. To submit orders for genetic counseling outside of this program, please order through InformedDNA's website: www.informeddna.com

3

Program Eligibility:

Patient or caregiver of patient aged 6 months and older diagnosed with X-linked hypophosphatemia (XLH)

NOTE: All patients provided information in this Genetic Counseling Referral form will remain confidential and shall only be used for the purpose of providing referrals related to genetic counseling.

Patient Documentation - Fax with Referral

Genetic or biochemical test results that support the patient's XLH diagnosis

4

* Genetic counseling appointments are sponsored by Ultragenyx Pharmaceutical, Inc. All genetic counseling will be provided by an independent genetic counselor assigned solely by InformedDNA. Ultragenyx does not have any role in the selecting of the genetic counselor.
